DAMOUCHARI

DAMOUCHARI

Its very name is taken from a heartbreaking love story and translates as "for the name of love". It is a place of astonishing beauty and peacefulness, unique for the picturesqueness and splendid colours.

The Damouchary is the only natural port of the whole Eastern Pelion range. You reach the village from Agios Ioannis after 8 km following the rural road. The walking in the area is magnificent, climbing the steep craggy steps of the cliff overlooking the beach, or meandering along the coastal track that leads to Papa Nero beach and Agios Ioannis. Through a picturesque interior for 1 hour and 45 minutes you can be in Tsagarada.

Here it is speculated that it was the place of ancient city of Mura. It consists of two bays. One a natural harbour with fishing boats wallowing in the shallows, overlooked by a couple of sleepy tavernas and bars. The other a stunning white pebble beach with aquamarine waters, graphic tavernakia above in the wave. The olive grove with the silvery leaves are touches that compose the beauty of this magnificent table.

Information: Our office has the possibility to organise small excursions - visits, with small boats to calm neighbouring beaches. This is the easiest way in order to go from Agio Ioannis to Damouchari.

The region is ideal and for dive.
