

# GREEN-BLUE-ROMANTIC FAMOUS... UNREPEATABLE

## Undiscoverable Pelion

Vacations in the land of the Centaurs - among enchanting mountain villages and picturesque sandy creeks. Northwestern of the beautiful city of Volos, rises the mountain of Pelion heading South towards both to Aegean sea and the gulf of Pagasitikos, where it "dives" into the deep, blue, crystal like, water.

The beauty of Pelion and its surrounding area makes it the ideal scenery for fairytales and stories. No wonder it's connected to so many Myths and tales. It's said to be the birth place of the Centaurs and the home land of Argonauts. This is the place, where the wise centaur, Cheiron taught everything he knew to warriors and Gods. The place, where semi gods used to hunt, where the famous beauty contest between Thetis and Eris took place.

Pelion, nature's favourite child was the connecting link between Gods and mortals.

All the great poets and authors have written about it. Pelion's grandeur inspired the Fathers of the world known Greek Revolution and it stood by as a hideaway to all those who were fighting for their freedom. So Pelion became for them the symbol of it. Something entirely understandable for only the calm air it self that rulls up here gives you a unique feeling of freedom and carefreeness that accompanies you in everything that you do, even in your sleep.

Inner state Pelion is smothered by all kinds of colourful flowers and high shady trees, that hide the mountain villages next to a mountain torrent, that sometimes seem to reign like aeries on the rugged summits. Eastwards Pelion slopes away to the wild romantic coast of Aegean Sea, while westwards riches the calm and full of creeks Gulf of Pagasitikos.

No other region in the land of Greece can offer the tourist these indescribable, unique feelings of serenity, tendency to romance, and adventure, that Pelion offers him. Sunny beaches and secluded bays just a few steps away from picturesque, fishing villages Besides it's divine atmosphere, there are thousands of reasons that explain why for so many years people think of it as the ideal place to live here on a permanent basis. It's dense forests, olive groves, endless acres of fruitful trees vegetables and medical herbs, its magnificent climate, the fact that it's only a few kilometres away from Volos, but most of all it's warm, smiling people make it Heaven on earth.
